PRESS KIT

6th edition

15 There have been no female stage cycling races in France, equivalent to the three major tours in which male professionals can participate in Europe since 1985.

---

★ **M-1** In 2015, The **DONNONS DES ELLES AU VÉLO J-1\*** (DDEAV J-1) project was born in order to encourage the revival of this type of women's event in France and around the world, to increase the visibility and promote equality between women and men in sports. ★

---

**Our message is starting to be heard loud and clear around the world and the momentum is on our side.**

The “Battle of North”, a 10-stage women's race, should start in 2021 in Scandinavia. The organizers of the Tour de France announced they are seriously working on a project for a women's stage race in France by 2022. The first Paris-Roubaix for female professional riders will even take place in fall 2020. *\* literally translating to “Let's give wings to women's cycling one day ahead”*
